**TRENCHLESSWORKS**

No-Dig Live, the world’s largest and most highly regarded trenchless technology event, is the must attend event in the installation or refurbishment of underground utilities including underground infrastructure and pipelining.

No-Dig Live is the only event in the UK where manufacturers and suppliers can display and demonstrate products in a working environment to an audience which is truly focused on trenchless technology.

This flagship event combines a world-class exhibition and unrivalled conference programme and is internationally recognised for bringing together innovators and thought leaders from across the trenchless sector. In doing so, it provides a perfect platform for exhibitors to showcase products and services to senior representatives from across the UK and global utilities markets.

Commenting on the launch of No-Dig Live 2024, Westrade’s Managing Director, Paul Harwood said: “No-Dig Live has always been dedicated to promoting innovation, sharing knowledge and fostering collaborations and this year’s event at this amazing newly refurbished venue will be no exception. With senior decision makers from across the utilities sector enjoying a diverse range of activities, including technical sessions, live demonstrations, panel discussions, and networking opportunities, this really is the must attend event for anyone wanting to build their brand and grow their business in the UK, European and international trenchless markets.”

VENUE

No-Dig Live 2024 is set to be even more spectacular as the event returns to recently refurbished NAEC in Stoneleigh, Warwickshire. The NAEC enables the event to continue to grow and offers some of the most sought-after exhibition space anywhere in the UK. With over 250 acres of outside space for larger equipment and live demos as well as three state-of-the-art exhibition halls covering just over 10,000sqm there really is something for everyone!

A wide range of hotels are located nearby, the excellent catering facilities and ample free parking will also be a major draw for exhibitors and visitors alike as will its excellent transport links by road, train and air.

ACCOMMODATION

NAEC Stoneleigh offers one hotel onsite, The Stoneleigh Park Lodge, which offers 57 bedrooms. Further to this, please see below local hotels:

- Chesford Grange - 205 rooms - 3.3miles
- Holiday Inn Kenilworth - 115 rooms - 4.8miles
- Woodland Grange – 114 rooms – 2.6miles
- Hotel Ibis Coventry South - 52 rooms - 5.2miles
- Brandon Hall Hotel & Spa - 120 rooms - 9.6miles
- Coombe Abbey - 120 rooms - 10.6miles
- Stratford Manor - 104 rooms - 12.6miles
- Ardencote Manor Hotel - 110 rooms - 13.8miles
- Eden Hotel - 43 rooms - 15.2miles

Please book direct with each hotel and book early to avoid disappointment.

TRENCHLESS WORKS

No-Dig Live organisers, Westrade Group publish Trenchless Works, a multi-media platform bringing together online the very best in news, opinion and views from across the UK and International Trenchless Technology sector. Our channels include live and digital events, a monthly magazine, website and Trenchless Works TV.

The combination of a multi-media platform and worldwide trenchless events provides a unique proposition and opportunity for companies to stay engaged and connected to the trenchless community 365 days a year, 24 hours a day. Trenchless Works is also the official Media Partner for UKSTT, and the official publication of the International Society for Trenchless Technology, ISTT and supported by Pipeline Industries Guild.

UKSTT GALA DINNER & ANNUAL AWARDS

No-Dig Live 2024 will, as always, include the much loved and brilliantly well attended UKSTT Gala Dinner and Annual Awards. This glamorous event, which combines fantastic entertainment and high-level networking opportunities, and showcases the very best innovation and excellence from across the UK trenchless sector will be held on 2nd October 2024. On arrival, guests will enjoy a champagne reception before sitting down to enjoy a lavish 3 course meal, spectacular live entertainment and much more!

The event, which is attended by over 400 people, will showcase and recognise this year’s best performing and most innovative trenchless technologies from across the world.

WHY EXHIBIT?

- The UK’s only event dedicated to the high growth trenchless technology sector
- An opportunity to display and demonstrate products to a highly targeted audience from over 30 countries
- Proven ability to generate sales and deliver return on investment
- Excellent opportunity to build brand profile and engage with the sector’s premier decision makers
- Demonstrate innovation and thought leadership as part of our conference programme
- Continued evolution delivered by sector specialist Westrade Group who bring over 30 years’ experience
- The only UK event supported by the UKSTT and their patrons
- Organised by Westrade Group – the world’s longest established specialists in trenchless technology events since the first ever No-Dig event held in the UK in 1985
- The biennial event continues to sustain impressive growth attracting 2000 visitors in 2022.

VISITOR PROFILE

Since its launch in 1985, No-Dig Live has demonstrated its ability to attract high calibre domestic and international decision makers. As the UK’s only event focus on trenchless technology the show ensures a diverse audience including engineers, consultants and contractors involved in all aspects of the installation or refurbishment of underground utilities. In 2022 the show attracted 2000 visitors from 30 countries making it the must-attend event for any business operating in the trenchless sector. Visitors are drawn from a wide range of sectors including:

- Utility personnel – water, sewerage, telecoms, electricity, oil and gas
- Contractors
- Government officers
- City planners
- Governors and mayors
- Civil engineering consultants
- Research organisations
- UKSTT and society members

- |                                  |                                 |
|----------------------------------|---------------------------------|
| ■ Asset Management               | Equipment                       |
| ■ Auger Boring                   | ■ Pipe Cleaning Equipment       |
| ■ Cable Avoidance Tools          | ■ Pipe Coatings                 |
| ■ CCTV                           | ■ Pipe Cutters                  |
| ■ CIPP Materials                 | ■ Pipe Fusion Equipment         |
| ■ Cleaning Innovations           | ■ Pipe Inspection               |
| ■ Coatings                       | ■ Pipe Jacking Equipment        |
| ■ Compaction Equipment           | ■ Pipe Joint Repair             |
| ■ Consulting Services            | ■ Pipe Location Equipment       |
| ■ Cutters                        | ■ Pipe Stoppers                 |
| ■ Detection Equipment            | ■ Pipe Testing Equipment        |
| ■ Digital Mapping                | ■ Pipeline Renovation Equipment |
| ■ Drilling Fluids                | ■ Pipes                         |
| ■ Drain Rodding                  | ■ Plant Hire                    |
| ■ Drainage Systems               | ■ Power Tools                   |
| ■ Drill Pipe                     | ■ Pumps                         |
| ■ Drill Rods                     | ■ Rock Drilling Equipment       |
| ■ Flow Monitoring                | ■ Separation Equipment          |
| ■ Gas Monitoring                 | ■ Sewer Cleaning Equipment      |
| ■ Geotechnical Services          | ■ Sewer Renovation Products     |
| ■ Ground Penetrating Radar       | ■ Site Investigation and Survey |
| ■ Guided Boring                  | ■ Sliplining Equipment          |
| ■ HDD – Accessories              | ■ Software Suppliers            |
| ■ HDD – Rigs                     | ■ Surveying Equipment           |
| ■ High Pressure Cleaners/Jetting | ■ Swagelining Equipment         |
| ■ Inspection Systems             | ■ Thrust Boring Equipment       |
| ■ Jet Cutting Equipment          | ■ Towing Heads                  |
| ■ Joint Repair Equipment         | ■ Tracking/Navigation Equipment |
| ■ Lateral Rehabilitation         | ■ Training Supplier             |
| ■ Leak Detection                 | ■ Trenching Machines            |
| ■ Linings                        | ■ Tunnel Boring Machines        |
| ■ Manhole Rehabilitation         | ■ Tunnelling Equipment          |
| ■ Microtunnelling Equipment      | ■ Vacuum Excavation             |
| ■ Moling Equipment               | ■ Vacuum Recycling              |
| ■ Mud Pumps                      |                                 |
| ■ Mud Recycling Equipment        |                                 |
| ■ Mud Supplies                   |                                 |
| ■ New Installations              |                                 |
| ■ Pipe Bursting                  |                                 |

....AND MUCH MORE

## ABOUT THE UKSTT

UKSTT was formed in 1993 and incorporated the existing UK-based members of ISTT. The International Society for Trenchless Technology, ISTT, was formed in 1986 but since that time has promoted the formation of National Societies in many different countries. The formation of these National Societies helped to give the local members a sense of identity and autonomy to pursue their own ideas.

UKSTT is structured as a company limited by guarantee, where its elected council members act as directors and guarantors. UKSTT set out its aims and objectives in much the same way as the International Society but with more emphasis on the exchange and networking of information and ideas throughout the UK utility industry.

Join the UKSTT to obtain the best exhibition rates.
